

SMA 6Way 0.45~6.0GHz

P.N. : D01-D3011-02

Products feature

- World best performance in Insertion Loss Amplitude Unbalance.
- Specialized in 5G in the Sub-6GHz.
- 30Watt power test approved.
- Various application for the Telecommunication.

Electrical specification

Item	Specification
Frequency range	0.45~6.0 GHz
Impedance (nominal)	50Ω
V.S.W.R INPUT (max)	1.50 : 1
V.S.W.R OUTPUT (max)	1.30 : 1
Insertion Loss (max)	≤2.5dB
Isolation (min)	≥18dB
Phase unbalance	≤± 8°
Amplitude unbalance	≤± 0.8dB
Input Power	30 Watt

Material specification

Item	Specification
Operating Temperature	-30°C ~ +85°C
Connector type	SMA female (jack)
